

Baku Stock Exchange held a master class at Baku Engineering University

The specialists of the Baku Stock Exchange conducted training on capital markets for students of the Baku Engineering University as guest trainers under the "Knowledge Exchange" program.

During the training, BSE experts informed the participants in detail about the types and mechanisms of financial markets, securities trading and listing on the BSE, post-trade operations, as well as about the advantages of a public company.

During the Q/A session, coaches answered students' questions at length and there was extensive discussion.
